## OBJECTIVES

### > Presentation

Are you interested in becoming an executive in the construction and civil engineering sector ?

Thanks to the Master's degree in Civil Engineering and its two building engineering courses, you will be able to design, organise and supervise all the stages of a building project : from construction and rehabilitation (TNCR course) to the management and integration of energy efficiency and renewable energy techniques (GI3ER course).

You will also be trained in management, communication and relational skills as you will be required to maintain close contact with customers and partners in the exercise of your future profession.

Ameer El Amine Hamami

## ✓ ADMISSION

### > Your profile

You have a Bac+3, Bac+4 or equivalent (minimum 180 ECTS) : you must have knowledge of civil engineering.

### > How to apply ?

In the 1st year of the Master's degree, the selection of candidates is made on the basis of their application documents.
